Multirack

PALLET RACKING AND SHELVING SYSTEMS

NEW ZEALAND OWNED AND OPERATED

Pallet Racking and Shelving Systems. Manufacturers & suppliers of Tear Drop pallet racking, Series 80 long span shelving & other storage opportunities.

100% NEW ZEALAND STEEL

Our NZ based manufacturing operation and sales team offer stocked products as well as bespoke systems, which are designed to suit your particular needs and requirements. We are the only pallet racking company manufacturing in New Zealand, using 100% New Zealand steel for your racking systems.

WE WORK WITH YOU

We can arrange to meet you at the beginning of your project, on site and continue to work with you throughout, ensuring you achieve the best system, design and layout.

OVER 41 YEARS OF EXPERIENCE

Multirack purchased tooling from a former New Zealand racking company. Multirack employs a wealth of experience and continues to grow as New Zealand's leading racking manufacturer.

RACKING SYSTEMS

CANTILEVER RACKING

- Maximize storage space
- Superior accessibility
- Single & double sided configurations
- Long commodities
- Fully adjustable
- Welded frames
- Fast assembly
- No bolts

LIGHT STORAGE

- Plastics & Aluminium
- Suitable for cool rooms

HEAVY STORAGE

- Steel, Timber & Pipes
- Indoor & outdoor application

RAISED STORAGE

- Effectively doubles storage space
- Stairs, loading gate, hand or knee rails
- Floors, steel grate or timber

CARPET RACKING

- Greater density storage
- Specific for rolls of vinyl/carpet with support throughout the shelf

- Frames are welded for maximum performance.
- Frames are boltless for speed of erection – parts cannot go missing.
- Components can be powder-coated or hot dipped galvanised. Available in light, medium or heavy duty.

SERIES 80 SHELVING SYSTEMS

KNOCKDOWN BOLTED

- Knockdown
- Adjustable shelving – 50 mm pitch
- Stable and secure
- Extendable
